ONE PARTNER UNLOCKS THE ENTERPRISE

The only Slack vendor for eDiscovery and DLP

Aware offers advanced controls and governance in order to enable all populations to confidently use Slack

- Enforce 'Acceptable Use' policies for all, including regulated and BYOD employees, and report on violations or undesired behavior
- Maintain compliance with industry and company regulations with granular data management controls
- The industry's most accurate AI-powered detection engine surfaces and remediates sharing of PHI/PII/PCI and other confidential information
- Speed eDiscovery with purpose-built preservation, collection and review workflows
