## Aware offers advanced controls and governance in order to enable confident collaboration in Workplace

- Enforce 'Acceptable Use' policies for all, including frontline, regulated and BYOD employees
- Moderate content within open, closed and secret groups, as well as work chat and files
- Track employee engagement, satisfaction and other metrics
- Maintain compliance with industry and company regulations with granular data management
- The industry's most accurate AI-powered detection engine surfaces and remediates sharing of PHI/PII/PCI, credentials and other confidential information

## One vendor. Lower total cost of ownership.
